To whom it may concern,

We have worked with Mantei Woodcraft Ltd. for the past 8 years on projects through out Canada. They have delivered quality millwork on time and on budget to high-end projects such as Pearson Airport in Toronto, Calgary Airport, Ottawa Airport and others.

We believe their office and site personal were instrumental in not only meeting, but exceeding the client's expectations,

We look forward to working with Carey and Paul in the future,

David Kerr-Taylor  
General Manager
